Dear Sir:-

Our Society does not publish any book on coins such as you request in your letter of July 14th. Probably the coin catalogues published some years ago by the J. W. Scott Co. would give you the information you desire. There are two of these, one relating to Copper Coins and the other to coins of silver and gold.

You can provably secure these from the concern whose card I enclose by sending the purchase price with your request. I think the price is seventy-five cents for each of these catalogues.

Very truly yours,
